“St. Germain”

I am St. Germain. I am with you often, even in those times when you are not aware. As are all of us who mentor to you at this time. We are always here and we are always a part of you.

In these times now, which are times of consternation, times of travail, know that this is still part of the orchestration that has been spoken of many times. We are all one my brothers and sisters. All. Even those who would do these deeds. We are one with them as well. There is no separation except for that you create in your own minds. That has been brought about by much of the programming that has gone on here.

For all that is happening now is happening for a reason. Yes, there are people suffering. Yes, there are people in pain. But know that their sacrifice is part of the greater good, greater whole. Take solace with this fact. They came in with a contract. They are living up to that contract now.

And in so doing they are providing the means to move on, move past all of the old programming. To move out of the Dark Ages and into the Age of Light. They are all a part of this just as you are a part of this. No one has a lesser or greater part to play in this great plan that is in the works now. In fact, coming to fulfillment.

The very deeds that have occurred here recently, those behind this are hastening their demise in doing so. Thinking that they are holding things off and are spreading fear but they are in essence doing the opposite. They are creating a need for loving attention. For one reaching out to another. Where there is hatred being sown, there is instead love being grown here.

All that is happening now, all that you are seeing with your own eyes, hearing with your own ears, all of this is still the illusion. The illusion that has been drawn in front of you. Pulled across your faces. Part of the veil. But as you have heard many times now, the veil is lifting. If you would look through the veil you would see the new reality not the old

illusion. But the new, the new sun shining forth with all of its many colors and all of its many understandings.

The time is NOW, my brothers and sisters. The time is NOW to understand, to wake up to who you are. To wake up to who your brother or your sister is next to you. For all of us are one. We are all part of the Great Source. We all have the Great Source within us. Within each of us.

Know that as these deeds continue to happen. And they may still yet have some occurrence here. Those times will become less and less. And those that are behind it all are finding that they are not having the effect that they originally thought it would or had in the past.

You can rest assured now that because of all those things that are happening in the background behind the scenes it is fast propelling you now to the new understanding that is coming upon you. The new awakening that is across the entire planet. And with this awakening will come those new experiences, those new levels of understanding and yet, even those changes within the financial system that I, myself, have been greatly working to bring about in this time.

It is close. There are many things happening in many parts of the world now that are bringing this new financial system into being. Many people are a part of this. It is only a small few that are continuing to hold this off. But soon, very soon, they will lose their grip and be able to hold it back no longer.

You are on the verge now; we are all on the verge now, for the great new changes. We ask that you be patient only a little while longer. Continue to do all those things that have been working toward. All of those things you have come to understand to bring about this new Golden Age upon the Earth.

I am St. Germain. I am with you at all times. Whenever you have a need, call upon me and the Violet Flame that I carry. Or call upon any of the others that have been working with you for we are all here to be with you.

Peace and love be with each of you.

“One Who Serves”

Greetings to you. Good to be here with you again.

We do not necessarily have message but we can certainly answer questions here. We know that “Lady Nada” is standing by to assist with questions or to close out the day here. Do you have questions here for “One Who Serves” or “Ashira” or “Lady Nada” if she wishes?

Question: Is there a particular reason why Paris or France was the target for the massacre?

”One Who Serves”

As we can tell you here it is all part of the orchestration that is going on. There is nothing that is happening to be of concern about here. Not in the sense, let us say you can “feel” for them that are going through the suffering and all of this, feel for them, be compassionate with them. Feel the Oneness with them but know that it is all part of the plan. In knowing that it is part of the plan, assists you and helps you to deal with the situation, does it not?

Because if you are allowing for the fear and circumstances to take over you it brings you back down, it takes you into the lower vibrations which is exactly what those of the Cabal want here. They want you to stay in the lower vibrations. They want you to stay in the 3D illusion here. The more that they can bring up a situation of fear and panic and catastrophe and all of these types of things that resonate with that to the lower vibrations. In that way they are being successful.

But we can tell you this. It is having the exact opposite effect that they wish it to have. It is not going according to their plans. This is happening more and more they are finding. Because what happens when these things occur now? Because of your Internet, because of the fast moving of your communication almost immediately it is coming out that no, this is a false flag event, no this is not real, this is part of the illusion, and it is part of the programming.

These things continue to come out and they are finding that their plan is not working as it always had previously. All the way back to the 9-11 when that occurred. Yes, it postponed many things and they think they were successful but in reality they created a situation for themselves that has led even more to their demise. So it had the opposite effect even then. And all of those times that have happened since both in this country and all parts of the world. It is the same situation. And each time it will come to an understanding that it is even more not according to their plans. You see?

Do you wish to add here Ashira?

“Ashira”

We would add that you had a good conversation at the beginning of this meeting. A good time to share various views and various insights and yet how much was in common in this room? Think of that in the global manner.

You are seeing things differently. You are hearing things differently. And even those who you do not think are awake yet are responding differently. The Illuminati or Cabal have not had the response they expected. This will NOT lead to WWIII. We have told you this many times. Everyone is responding in a different way.

“OWS”

And one more thing you will find is that more and more people will begin to use the phrase, “Enough is enough”. That is going to happen here. You will see it more and more. It has come to the point where it is enough now.

Would there be further questions here now?

We are going to have a very short session here this time but that is OK. It is what it is.

Then we will end with this. You, each one of you, are a part of the greater expression here. Each one of you are a part of this great plan. Know that as you are to move through your daily lives. Allow yourself whenever these types of things come up that are creating fear and those things across the planet, allow yourselves to feel it initially and then move beyond it. Replace the fear with love. That is not what they are not expecting. They are not expecting the fear to be replaced by love.

What happens when there is any sort of a catastrophe? Do people not bond together, come together where before they were strangers? Now they are brother and sister working together to bring about the greater whole? This is what is happening now. You are seeing it there in France, there in the Middle East and here in this country where there are different types of calamities.

Each time that it happens it brings it about even more. More people awaken and feel the love from their brother and their sister. This is what is occurring now. It is moving the entire planet to an awakening of an consciousness.

Shanti. Peace be with you. Be the One.

“Lady Nada”

I am “Lady Nada “and I have been with you throughout your meeting today listening to your conversation. I am basically just going to share with you much of what St. Germain shared with you.

We love you. We know that these times are difficult for you in a moment. And yet those in this group, those who read these words, those who hear the messages come into love,

come into peace, come into compassion. Even though this looks like it could be something so scary for those who are involved. Look at these people who are involved with love. Come back into your higher consciousness.

Move out of this meeting with love. All of us who are here to work with you, to serve you, to share with you do so with love. We want you to know this.

Those people who leave through these types of circumstances have an agreement to go. An agreement to be a part of the action. Be a part of the plan. That may or may not help those who are family members but it is part of the process that we talked about earlier this month.

It is part of the process. Part of the Divine Plan to pick up the pieces. To fill you with love. To send you back out into the world to spread that love again.

Thank you for that expression today. Know that each of you is doing your very best in bringing the light into the world. Thank you, James, for that meditation which led everyone in this room around the world to spread that love.

You are doing what you have been called to do. You are doing what you promised to do. You are doing exactly what is being asked of you now.

You may ask upon any and all of us if you need us in a moment's notice we will be with you.

I am going to close today. I fill this room with my love, my appreciation and my sincerity.
