**“OWS”**

Greetings to you. Good to be back with you again in this way. So enjoying these times and now multiplying the times coming together here. We are having the ability to chat with you more and more and we are enjoying this. We are looking so forward to the times when we are going to be even more closely with you.

We know that you are looking forward to those times as well because you will be able to put a face to this crazy voice here! You will be actually able to see us. We will be able to see you too! It will be wonderful and there are celebrations going on now. On the ships and in those places we frequent all the time. You have no idea of what is in the works here. We know that we speak about this. We tell you of celebrations and parties like you have never had before. And this is certainly so, you are going to have it.

But let's speak about what is going on now. To understand the now you are in the same old, same old routine, you might say. Things are going on like they have always gone on and nothing is changing. You hear about all this wonderful stuff and you wonder when it is all going to happen.

And we would say to you that it is already happening. It just has not manifested yet in your 3D paradigm. In some ways it will not manifest in your 3D world, in this illusion because you are moving out of this illusion or are moving beyond it.

So, for the manifestation to happen of what we have been speaking of then you need to move up into the higher vibrations. And then you will have this manifestation. This is not going to be for everyone.

Everyone is not going to experience the high that you are going to experience. There are some who are going to hold themselves back. Understand that we say it in that way now. Hold themselves back. God is not holding anyone back. We are not holding anyone back. They themselves will hold themselves back if they choose to do that.

It is all about vibration. It is about moving out in vibration and if you practice raising up in vibration every day then you will be in those higher dimensions as we have been speaking of. It is all for you there. It is all in front of you. Just be patient a little while longer and everything is going to work out!

As James said earlier, this all a moot point at this point. The things you are thinking are going to happen are not going to happen. You are not going to have an election. You are not going to have a pandemic of any kind. There is not going to be a Third World War, a nuclear war. You will not have anything that will reduce the population by a huge amount.

There will be skirmishes here and there, we will call it. It is nothing to be concerned about. It is all part of contracts; it is all part of the orchestration that is taking place on this great Earth plan. You, yourselves, are a part of this orchestration and you are working on the endeavor to bring all of this about. If you weren't here then the plan could not go on. Understand that you are a major part, you are the Plan itself.

So, continue to work at it. Continue to do your daily activities and find many times during the day when you can raise your vibration; bring about a higher vibration for all. See these changes happen more rapidly. You will begin to manifest them into your world.

That is our message as "One Who Serves".

Shanti. Peace be with you. Be the One.

## **“Ashira”**

I am “Ashira”. Thank you again for the time thus evening that we have shared.

We know that there is not necessarily a new edition to everything we say on a weekly basis but we are always here in good earnest and good heart to share with you. To care with you and to be with you. Call forth for us. If you need us in the next few days, call out and we will be by your side.

Call out to all who are bending close to the Earth at this time. Archangels, Ascended Masters and your personal guides. You are in good care.

I bring you my love, my light and my peace,

Namaste
